

Hi Nilda-

Please note that the dept. has reviewed the history of our Fall seamless programs so far this season, and with the poor sales on the Empire waist, they find necessity to cancel the 12/15 update of the 11/1 Rouched tank. This amounts to nearly 62.0 units. With the quality issues on the Empire seamless, poor sales due to this poor execution, and all the shipping issues we are experiencing with the 11/1 Rouched initial PO's, the dept. is asking for full partnership on these canceled units. I realize that you are all in Mpls. tomorrow, so feel free to call me to discuss or coordinate a meeting time. I'm free from 12-2. 612-696-3528

Amber is out of town in Central America this week, so she won't be able attend if we meet.

Thanks!
Lauren

Hi Nilda-

Please excuse me for the short response, but I wanted to get out a reply to you by the end of the day. Understand that you will still be bringing these units into your warehouse, but we need to finalize at this point if we can consider these units canceled...and then later decide if we want to buy back into them. Erin wants the cancellation decision to be made sooner than later...and doesn't necessarily think the sales of the program will affect her decision to cancel them right now.

Thanks!
Lauren

Hi Lauren,

To recap our meeting yesterday....

We confirmed with Erin that the following purchase orders would be potentially canceled

Po # 6617031 13308 pcs
Po # 7495869 17784 pcs
Po # 9942615 2916 pcs
Po # 1656600 380 pcs
Po # 1367826 15012 pcs
Po # 6874758 8028 pcs
Po # 1364131 4980 pcs
Total amounts: 62408 pcs

We will still manufacture this product and we will bring it into our whse so that potentially once you have sales read for this product we can have inventory to flow to your stores. We do feel very confident as we had expressed in our meeting that once this body hits the floor the sales will take off and there will be a need for this product.

In regards to p.o. # 3566964 - note that we have been advised on all the bookings that we have made for this program for later delivery of the cargo to your forwarder without specific reasons. Therefore, for this particular purchase order it could not be advised that the holiday would impact it as it was not originally scheduled to ship at this timing. We are trying to book it on the 10/19 vessel, however, we do know that there is a backlog of freight as everyone in this part of the world is also trying to do the same before the holiday. Note that Jordan is closed on Fridays, therefore, we will work with our factory and your forwarder during the weekend since they are open on Sunday and we will have a firm answer for you on Monday as to when we can deliver this purchase order to your forwarder either 10/19 vessel or 11/2 vessel.

Thanks and best regards,
Nilda

Hi Nilda-

D 00511

I want to follow up with you on this and clarify a few things:

First of all, the dept. will definitely want to switch this to your warehouse while we work out this cancellation.

Second, we are extremely concerned about the ship windows for this program for these units. Since they fall within this nation's holiday...we are looking at a 2 week IS delay? Why didn't the factory alert us of this? We advise ship windows based on IS date and country of origin, not specific to each country's specific holiday calendar. If there were challenges because of the holiday...this should have been surfaced when the commit was issued on 6/23.

Finally, can you advise us where you are in researching this with your factory? We need to find resolution as fast as possible.

Thanks!
Lauren

Private Label will bring them into their warehouse anyways and await the possibility that we might need them.

If, once we read sales after 10/25, we decide we need more units, we can have the option to "rebuy" these units.

Target no longer owns these units, or has an agreement to purchase them from Private Label.

Thanks!
Lauren

Hi Lauren,

No problem....

The six purchase orders are considered canceled... after sales you can decide if you would like to take them in.

The only p.o. that is not considered to be canceled is the po #3566964.

So, pls call me if I am being unclear I am in the office 212-329-0805.

Thanks and best regd
Nilda

Hi Nilda-

Please excuse me for the short response, but I wanted to get out a reply to you by the end of the day. Understand that you will still be bringing these units into your warehouse, but we need to finalize at this point if we can consider these units canceled...and then later decide if we want to buy back into them. Erin wants the cancellation decision to be made sooner than later...and doesn't necessarily think the sales of the program will affect her decision to cancel them right now.

Thanks!
Lauren

Hi Lauren,

To recap our meeting yesterday....

We confirmed with Erin that the following purchase orders would be potentially canceled

Po # 6617031 13308 pcs
Po # 7495869 17784 pcs
Po # 9942615 2916 pcs
Po # 1656600 380 pcs
Po # 1367826 15012 pcs
Po # 6874758 8028 pcs
Po # 1364131 4980 pcs
Total amounts: 62408 pcs

We will still manufacture this product and we will bring it into our whse so that potentially once you have sales read for this product we can have inventory to flow to your stores. We do feel very confident as we had expressed in our meeting that once this body hits the floor the sales will take off and there will be a need for this product.

In regards to p.o. # 3566964 - note that we have been advised on all the bookings that we have made for this program for later delivery of the cargo to your forwarder without specific reasons. Therefore, for this particular purchase order it could not be advised that the holiday would impact it as it was not originally scheduled to ship at this timing. We are trying to book it on the 10/19 vessel, however, we do know that there is a backlog of freight as everyone in this part of the world is also trying to do the same before the holiday. Note that Jordan is closed on Fridays, therefore, we will work with our factory and your forwarder during the weekend since they are open on Sunday and we will have a firm answer for you on Monday as to when we can deliver this purchase order to your forwarder either 10/19 vessel or 11/2 vessel.

Thanks and best regards,
Nilda

Hi Nilda-

7/26/2007

D00163

I want to follow up with you on this and clarify a few things:

First of all, the dept. will definitely want to switch this to your warehouse while we work out this cancellation.

Second, we are extremely concerned about the ship windows for this program for these units. Since they fall within this nation's holiday...we are looking at a 2 week IS delay? Why didn't the factory alert us of this? We advise ship windows based on IS date and country of origin, not specific to each country's specific holiday calendar. If there were challenges because of the holiday...this should have been surfaced when the commit was issued on 6/23.

Finally, can you advise us where you are in researching this with your factory? We need to find resolution as fast as possible.

Thanks!
Lauren

Hi Nilda-

Please note that the dept. has reviewed the history of our Fall seamless programs so far this season, and with the poor sales on the Empire waist, they find necessity to cancel the 12/15 update of the 11/1 Rouched tank. This amounts to nearly 62.0 units. With the quality issues on the Empire seamless, poor sales due to this poor execution, and all the shipping issues we are experiencing with the 11/1 Rouched initial PO's, the dept. is asking for full partnership on these canceled units. I realize that you are all in Mpls. tomorrow, so feel free to call me to discuss or coordinate a meeting time. I'm free from 12-2. 612-696-3528

Amber is out of town in Central America this week, so she won't be able attend if we meet.

Thanks!
Lauren
